GET A FREE FUNDING COMPARISON

Want to know how we compare to other funders? Take advantage of our FREE fee comparison service!

Completely obligation-free, with our fee comparison service, we can show you the hidden costs and charges to watch out for, allowing you to compare recruitment funding providers on a like-for-like basis.

HOW DOES IT WORK?

Simply answer a handful of questions about your current funding provider and we'll work out the charges or fees they apply and produce a comparison document to help you understand the genuine fee that you are being charged.

HOW DOES RFS COMPARE TO OTHER FUNDERS?

RFS funding is different to most other funders, in that it offers a single fee with a transparent pricing structure, so the headline rate advertised by RFS is the rate that agencies will actually pay.

“ Having worked as a senior recruitment consultant with a company for several years, I finally made the big decision to break out and start my own recruitment agency.

I have found the RFS service to be first class offering flexibility and fantastic support whenever I need it. ”
